The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1 and 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 59-195565, of record.

Spring loaded valve seats 9 and 10 are movably disposed and are read as being pin valves. The ports of JP '565 are read as being coupled as recited in claims 5-7.

Applicant's arguments filed January 24, 2011 have been fully considered but they are not persuasive. Applicant argues that the claims distinguish over the description of Prior Art in the Related Art section of the specification of face seals that rub and intermittent interruptions of flow.

However, there is no explicit definition in the specification of what a pin valve is or what the pin of a pin valve is. Instead, there is a disclosure that a pin valve is movable and has a passage therethrough. The analogous structure in JP '565 moves and has a passage therethrough and thus is seen to fairly respond to the claim language.

Moreover, there is no enabling disclosure with respect to the elected species of Figures 1-3D of a pin valve which is not a face seal and avoids rubbing and intermittent interruptions of flow. Accordingly, the claims are not seen as distinguishing over JP '565.

Claims 5-7 are, in the alternative, rejected under 35 U.S.C. 103(a) as being unpatentable over JP '565.

Coupling the ports of the liquid chromatography valve of JP '565 to the system components recited in claims 5-7 is considered to be an obvious step in that such system components are old and well known in the art.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
